

EDUCATION

Course	Institute	Year of Passing	Result
B.Tech (CSE)	IIT Jammu	Expected 2025	8.1 CGPA (Till 6th Semester)
12th Standard	STEP BY STEP PUBLIC SCHOOL	2020	81%
10th Standard	STEP BY STEP PUBLIC SCHOOL	2018	85.8%

WORK EXPERIENCE

Research Intern

IIT Jodhpur, Remote (May 2024 - Jul 2024)

- Conducting research on Federated Learning for skin disease segmentation under Dr. Bikash Santra at IIT Jodhpur.
- Implementing TransUNet to enhance the segmentation accuracy of skin disease images.
- Focusing on leveraging Federated Learning to improve data privacy and model robustness in medical image analysis

Crapcycle Waste Solution pvt. Ltd.

Software Engineering intern, Remote (Jun 2024 - Present)

- Developed a comprehensive web application : Utilized MySQL, Express.js, and React.js to create a fully functional website with a dynamic dashboard.
- Facilitated recycling commerce : Designed and implemented a platform where vendors and buyers can interact to buy and sell recyclable items.
- Integrated end-to-end functionality : Ensured seamless interaction between the frontend and backend, enhancing user experience and operational efficiency.

PROJECTS

Pioneer

Backend-Developer, IIT Jammu (Nov 2023 - Present)

- Implemented an algorithm to assign projects to 4th-year students based on CGPA.
- Utilized MERN stack and other programming languages to code and test website functionalities.

Dish Delight (MERN Stack)

Project Owner, IIT Jammu

- Developed a highly-functional web application using MongoDB, React JS, Node JS, and Express.
- Implemented JWT authentication for secure user transactions and integrated Stripe for seamless payment processing
- Designed an intuitive interface for easy navigation and a streamlined purchase process
- Automated the delivery of PDF receipts and email notifications to enhance user satisfaction and operational efficiency

Web Element Recognition Model | Python, YOLO, CNN

Project Owner, IIT Jammu (Jan 2023)

- Created YOLOv8 Web Element Recognition Model for precise webpage element tagging using advanced computer vision.
- Utilized advanced computer vision techniques for precise identification and tagging of diverse webpage elements
- Implemented customizable training features for adaptation to specific use cases and domains
- Facilitated seamless integration of YOLOv8 with existing web-related pipelines
- Enhanced automation and efficiency in web tasks through accurate element detection and bounding box generation
- Optimized web scraping and monitoring processes with YOLOv8's element recognition capabilities

SKILLS

Programming Languages	C/C++, Python
Web Development	ReactJS, HTML, CSS, JavaScript, NodeJS, Express, Tailwind CSS, Material UI, JWT, Vercel/Netlify
Softwares	Git/Github, Jupyter Notebook, Onshape
Machine Learning	PyTorch, Scikit-Learn, Numpy, Pandas, Matplotlib, Tensorflow , CNN, R-CNN, Deep Learning, YOLO
DataBase	MYSQL, PL/SQL

ADDITIONAL DETAILS

Achievements

- Consistently solved over 700+ DSA problems across multiple platforms
- Demonstrated advanced proficiency in various DSA techniques and algorithms

Workshops and Training Attended

- The Role of Data, Analytics & AI in Finance Transformation by Steve Rosvold
- Completed TCS iON Career Edge - Young Professional

Positions of Responsibility

- Organized 'Modi@20' event in 2022
- Class Representative of CSE.
- Event Head/Host for Prom Night and TwinsFlame, Renao'23

Extracurricular Activities

- YouTube Content Creator with a channel boasting 27.4k subscriber

Hobbies: Badminton, Football, Gaming
